

SWITCH

Over the 30 years I've been in renewable energy, Switch is the most comprehensive and balanced documentary I've ever seen.

- Phil Dutton
GL Garrad Hassan

Every person in America should see and digest this film.

- Douglas Johnson, Statoil

Switch really puts all the pieces together, and makes me optimistic about the future.

- Erin Geoffroy
Environmental
Defense Fund

Filmed in 11 countries, *Switch* explores the world's leading energy sites, from coal to solar, oil to biofuels, many highly restricted and never before seen on film. *Switch* gets straight answers from international leaders of government, industry and academia, to cut through the confusion and discover the path to our energy future.

Switch is presented as part of the GSA *Switch* Energy Awareness and Efficiency Program, sponsored by America's leading geology organizations and the O'Donnell Foundation.
