

The Biofuels Symposium was held to encourage faculty from within the University of Nebraska to share their research and to foster ideas in the biofuels and bioproducts area. The majority of participants were from the following departments: Biochemistry, Biological Systems Engineering, Chemistry, Mechanical and Materials Engineering (MME), Plant Pathology, School of Biological Sciences, Textiles, Merchandising and Fashion Design as well as the U.S. Department of Agriculture. The event was hosted by the Nebraska Center for Energy Sciences Research (NCEsr).

Dr. Prem Paul welcomed symposium attendees.

Friedrich Srienc, NSF Program Manager, spoke to attendees via Adobe Connect.

Jiantao Guo (Chemistry) presentation

Wayne Riekhof (School of Biological Sciences) presentation

Galen Erickson (Animal Science) presentation.

Edgar Cahoon (Biochemistry) presentation

Barry Cheung (Chemistry) presentation

Paul Blum (School of Biological Sciences)
presentation

Nicole Buan (Biochemistry)
presentation

Concetta DiRusso (Biochemistry)
presentation

Joe Turner (Mechanical and Materials
Engineering) presentation

Yiqi Yang (Textiles,
Merchandising, and Fashion
Design) presentation

David Berkowitz (Chemistry)
presentation

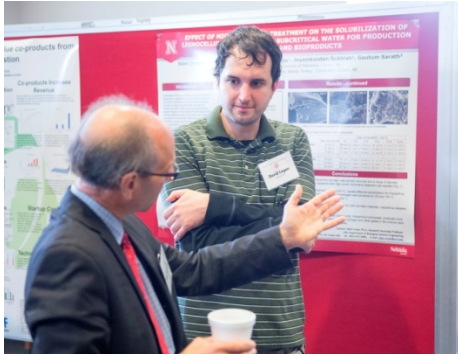

James Van Etten (Plant Pathology)
presentation

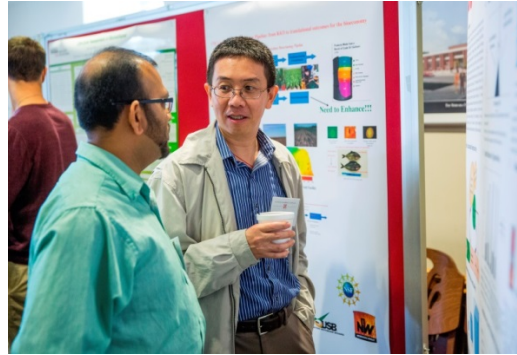

Heriberto Cerutti (School of
Biological Sciences)
presentation

And then there was an opportunity

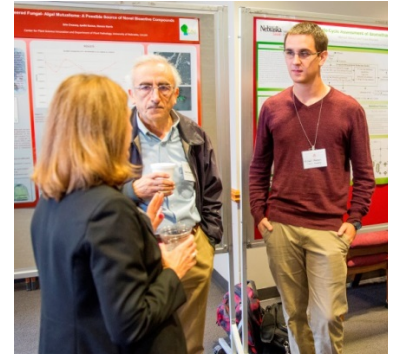

to exchange ideas at the Poster Session . . .

David Berkowith with David Logan,
poster presenter

Deepak Rudrappa , poster presenter,
with Jiantao Guo

Concetta DiRusso, Yasar
Demirel, Michael Matzen,
and Loren Isom

Steve Harris (poster presenter)
with Mark Riley

Heriberto Cerutti with
Mitch Goedeken

Hae Jin Kim (poster
presenter) with
symposium attendee
